2022 ANNUAL FINANCIAL REPORT

Friends and Supporters,

Orphans Africa completed 15 years of service at the end of 2022! We are proud to report that development continued at the school programs and agricultural sustainability projects in 2022, thanks to your support. Over the past 15 years we have educated thousands of students. Congratulations!

Educational quality continued to be in the top 15% across the nation of Tanzania based on national standardized testing, which shows the dedication of the teachers, staff, orphan students, and to those who support Orphans Africa. The primary school won kudos for its excellence in academics! Thank you to all.

Orphans continued to receive food, medical insurance, dormitory housing, school supplies, and clean water. All of these things contribute to making Orphans Africa successful in its mission - "Educate orphans in Africa".

Revenues declined to \$155,166 for 2022, in part due to no in-person Benefit in 2022 because of lingering pandemic effects. This decrease in revenue resulted in 71% of collected funds going to the programs in Africa. Payroll as an operating expense was limited to \$15,534 for the year.

The all-volunteer Board of Directors **thank you** for your continued financial support and dedication. We are pleased that you have chosen Orphans Africa as an avenue to make the world a better place.

Sincerely,

Orphans Africa Board of Directors
